At Restore and Rebuild, we don't want finances to be an obstacle to people receiving the help they need. We offer a standardized sliding scale of fees for services based on annual gross household income. Our rates are as follows:

### Sliding Scale Rates

Gross Household Income per Year	Therapy/ Counseling Sessions	Mentoring Sessions
More than \$100,000	\$140	\$100
\$80,000 - 100,000	120	85
\$60,000 - 80,000	100	70
\$40,000 - 60,000	80	65
Less than \$40,000	60	40

If you cannot afford to pay the sliding scale rate determined by your income, we invite you to request a discounted fee. Based on the availability of our scholarship funds, we may approve your request for a predetermined number of sessions.
